# Module 2

## Working Safely with PTOs

### Workbook exercises

Read the questions carefully and follow the instructions.

#### 2.01

Mark as TRUE  or FALSE  to indicate which of the following statements will help keep you safe when using PTOs.

I must not use a PTO without an approved guard.

I must ensure the PTO guard is correctly fitted.

PTOs more or less take care of themselves so I can concentrate on other things.

I must never use a guard that is damaged.

Not that many accidents happen around PTOs.

I must ensure all guards comply with Australian safety standards.

I must check driveline shields making sure they are in good condition.

I must ensure the master shield is kept in place.

The prescribed overlap of the telescopic sections of the shaft must be checked in both the working and transport positions.
